WELCOME TO IRONBUILT STEEL BUILDINGS

With over 38 years experience in designing and shipping buildings to 54 countries worldwide, Ironbuilt Steel Buildings has a proven history of quality and reliability in the steel building industry. Our team of professionals has developed an unparalleled reputation, tackling complex applications for all your business solutions. All of our project designers participate in an intense continuing education program so that you can feel confident that your building is of the best possible design and will last you a lifetime.

Pre-engineered to simply bolt together, the Factory will custom manufacture your building in one facility, utilizing state of the art equipment and 100% American made steel, guaranteeing you superior quality with savings as much as 40% off conventional construction.

Our designers can work with your architect or engineer, incorporating your Autocad design into your building project. If required, we can also custom design your project from beginning to end.

No matter what size building you need, from a small garage or workshop to a large riding arena, manufacturing facility, church sanctuary or self-storage operation, we stand ready to design, deliver and service the best building in the industry.

IRONBUILT STEEL BUILDINGS COMPLETE CONTRACTOR SERVICES

At Ironbuilt Steel Buildings we value our customers. Our 38 years of experience in steel building design, supply, and service has allowed us one of the highest repeat purchase rates in the industry. We understand that technical support and continuous customer service are crucial to achieving 100% customer satisfaction.

When starting or expanding a business, it can often seem like an overwhelming task to purchase and construct your business' facility while also managing the responsibilities of your business or organization.

Ironbuilt Steel Buildings solves this problem for customers through their turnkey **Contractor Services Department**. We are able to help you design the layout of your building, engineer and supply the structure, prepare the foundation, and erect the building. If you require the interior build-out package including plumbing, electrical, and HVAC, in most areas we can accommodate that as well. Whether you need just the building shell itself erected or complete interior finishing, our turnkey contractor services department will make your building project a professional, trouble-free experience.

RETAIL & COMMERCIAL

MAXIMIZE YOUR BUILDING DOLLAR.

Let us show you how to construct more building for less money. Whether you need to start from scratch or add more space, we can help you do it. The factory's engineers can work with you to design your building to incorporate different materials and facades to achieve the look you want. We can make your retail store or office building match the surrounding structures. Virtually maintenance free and built to last a lifetime, give Ironbuilt Steel Buildings a call today.

Ironbuilt Steel Buildings embraces green building technology in its building design and features. Since energy costs are soaring and emissions are affecting the climate, Ironbuilt has adapted its buildings to help lessen these affects.

Our colored steel sheeting is available with **cool colors** that are **Energy Star®** and **LEED®** rated. These cool color coatings are formulated to have higher reflective properties that keep your building cooler and can save you as much as 15% on energy costs.

State of the art solar power technology can be easily integrated into Ironbuilt's roof systems with solar panels or photovoltaic laminates. If your project requires structural insulated panels that qualify for tax credits, our project designers can have the factory engineer them into the design. Call Ironbuilt today and see how efficient building design can produce huge savings.

PROTECT YOUR INVESTMENT

WAREHOUSE

FAST SOLUTION. SAVE MONEY. MAXIMIZE SPACE.

Is lack of space holding back your business? Our buildings offer a fast solution and save you money over conventional construction. Each building is designed to give you maximum space with heights from 10 ft to 50 ft and unlimited lengths.

We are ready to help you maximize your earning potential with the most efficient mini-warehouse design possible. Whether your business is just starting out or expanding, we can custom build your self-storage facility with a variety of popular unit sizes, 5 x 10, 10 x 10, 10 x 15, 10 x 20 and larger. Our self storage buildings are also designed to be expandable with adjustable interior partition walls so you can grow your business as needed. Give us a call today and we will show you how to start generating income with your own self-storage facility.

TRUCK FACILITY

PROTECT AND SECURE YOUR VALUABLE ASSETS

Is your expensive investment sitting outside, rusting away? Let Ironbuilt Steel Buildings help you protect and secure your valuable assets. Our buildings are built to withstand the harshest weather conditions and can be erected in a fraction of the time needed for conventional construction. Whether you need to cover one truck or a fleet of trucks, we can assist you with all of your project needs.

MANUFACTURED FOR STRENGTH AND QUALITY
100% AMERICAN STEEL • BUILT WITH PRIDE

THE STRUCTURE

Ironbuilt's buildings are manufactured using the latest CAD and CAM technology with only 100% American Made Steel*. The buildings come with a 25 year warranty on the roof and a lifetime warranty on the stainless steel capped fasteners. PBR roofing with the superior overlap is standard. Optional galvanized framing is available.

Every Ironbuilt building comes with the most complete trim and closure package in the industry to guarantee a tight seal against weather, insects and rodents.

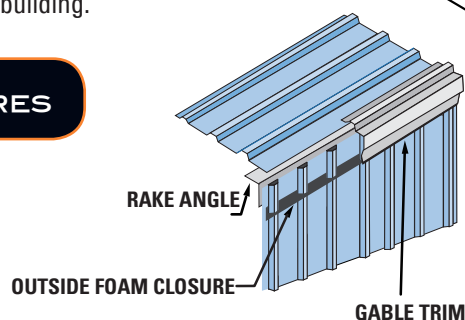

EAVE TRIM

Our deluxe trim package gives you a weather tight seal between the wall panel and the roof panel. Exclusive triple closure protection against the weather.

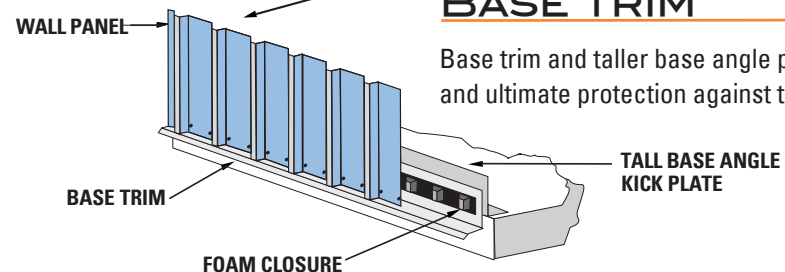

CLOSURES

For a superior seal, no manufacturer supplies more closures as a standard feature on every building.

MORE CLOSURES

HEAVY DUTY BASE CLOSURE SYSTEM

BASE TRIM

Base trim and taller base angle provide strength and ultimate protection against the weather.

CORNER TRIM

CORNER TRIM

Architectural full sized corner trim designed with strength and style in mind.

EXCLUSIVE TRIPLE CLOSURE PROTECTION ONLY

RIDGE CAP

Preformed at the factory for simple installation. Engineered to seal out extreme weather conditions.

PEAK CAP

Preformed peak cap for a weather tight seal.

ROOF FASTENERS HAVE A LIFETIME WARRANTY

INSULATION (OPTIONAL)

PURLIN
ENDWALL RAFTER

A CROSS SECTION OF OUR BUILDING

Showing purlins, rafter, roof and wall panels. Our buildings come precut and prewelded for easy assembly.

EXCLUSIVE TRIPLE CLOSURE/TRIM PROTECTION AT DOOR OPENINGS

DOOR OPENINGS

Our door openings come factory ready for overhead door installation. Full cover color jamb and header trim is standard, not just an option. Foam closure and trim seal door header and jamb tight.

CHURCH

AIRCRAFT HANGARS

DESIGN THE PERFECT BUILDING TO MEET YOUR NEEDS.

Ironbuilt Steel Buildings' expert project designers can help your congregation design the perfect building to meet your needs. You can choose from an assortment of sanctuary floor plans that can lessen expensive architectural fees and help maximize your budget. The pre-engineered design allows for low cost future expansion for enlarging the sanctuary, adding classrooms, offices, or recreation space. Exterior walls can be custom designed to use masonry, wood, or stucco facades to enhance the aesthetics or match surrounding buildings. Whether for a sanctuary, fellowship hall, gymnasium, classrooms, or just more space, a building from Ironbuilt Steel Buildings is the most economical choice for all your church needs.

PROTECT YOUR INVESTMENT. 25 YEAR WARRANTY.

Protect your valuable investment. Ironbuilt Steel Buildings' easy bolt together construction comes with a solid 25 year warranty and will keep your aircraft safe. Whether you plan to use bi-fold, hydraulic panel or sliding doors, the factory can integrate them into your building for a tight, secure fit. We can design your building up to 200' wide to accommodate the broadest wing spans and unlimited lengths for fleet storage.

BARN & ARENAS

AGRICULTURE

DESIGN THE PERFECT BUILDING TO MEET YOUR NEEDS.

Ironbuilt Steel Buildings is the thoroughbred of buildings. We provide quality, service, affordability and we can custom design your arena or barn to maximize your usable space. Our buildings are pre-engineered to span up to 200' wide without posts which optimizes any commercial rodeo, barrel racing or riding arena application. Let us help you build a bigger and better barn or arena than you ever thought possible.

SPEND YOUR TIME ON WHAT'S IMPORTANT.

We know the hard work that goes into running a successful operation. With an Ironbuilt Steel Building, you can rest assured that your equipment, livestock, feed and other valuable assets have the strongest protection. No matter what weather you're working in, our buildings are designed to withstand the most extreme conditions and are built to the highest standards of workmanship. Designed to be virtually maintenance free so you can spend your time on what's important, instead of building maintenance.

HUGE SAVINGS • SIMPLE BOLT TOGETHER CONSTRUCTION

WE'LL HELP YOU DESIGN YOUR PROJECT. NO MATTER HOW COMPLEX.

The factory engineers can help custom design your project no matter how complex. With over 30 years in the industry, we have the experience and knowledge to help with cranes, mezzanines, racking systems and machinery layouts. We can design up to 200' wide clearspan and endless lengths to accommodate all your business needs. Whether just starting out or expanding your current facility, it makes good business sense to call Ironbuilt Steel Buildings first.

IS YOUR YARD FULL OF CLUTTER? TIRED OF WORKING ON YOUR PROJECTS IN THE RAIN OR SNOW WITH TARPS?

Ironbuilt Steel buildings can typically be assembled in half the time of conventional construction and are virtually maintenance free. They are perfect for workshops, garages, boat shelters or just extra storage space. Whatever your needs, Ironbuilt Steel Buildings can help you realize that dream building and get out of the weather.
